R410A
earth-friendly refrigerant

Quality That Endures

The Ruud high-efficiency air handler combines money-saving efficiency, quiet operation, and legendary reliability to bring you total peace of mind and the best in home comfort – year after year. And as part of the premium Ruud *Ultra Series™* of home comfort equipment, you know you're getting the best in quality and performance.

Rely On
RUUD™

Features & Benefits:

We're Green - Inside & Out.

At Ruud, green is much more than the patented *Neutra Green™* color of our products. Our full line of products meet or exceed world indoor and outdoor environmental standards. In the cooling mode, the UBHM and UBHN Air Handlers can automatically adjust airflow to remove humidity from the air, resulting in a more comfortable and healthy home. In addition, the Ruud *Ultra Series™* high-efficiency air handler features the following:

- 1. Advanced Technology.** The ECM Motor reduces electrical consumption while providing the selected amount of airflow over a wide variety of home comfort applications.
- 2. Electric Heat (optional).** The optional factory-installed electric heat has exclusive sheath-type electric heating elements for greater efficiency and reliability.
- 3. Watt Restrictor.** For superior energy savings, our patented Watt Restrictor limits electrical heating uses to only the necessary amount needed to achieve your home comfort level.
- 4. Insulation.** In the blower compartment, you'll find 1/2" insulation to make operation more quiet. It's mechanically retained, too, to stay in place.
- 5. Adjustable Air Speed.** Thanks to adjustable controls for the blower, your technician can precisely match airflow to the specific comfort requirements of your home.
- 6. Cooling Coil.** The high-efficiency cooling coil has copper tubing and aluminum fins for superior heat transfer. The "A" coil design provides improved refrigerant flow and performance for great energy savings.
- 7. Durable Cabinet.** The attractive, painted cabinet has double-wall steel construction and internal corner bracing for superior strength and rigidity.
- 8. Indoor Air Quality.** The Ruud *Ultra Series™* high-efficiency air handler is designed to work with the full line of Ruud high-efficiency air filters to help keep the air you breathe clean and free of harmful pollutants.

There are some things in life you can always rely on...

Limited Warranty Information

Ruud supports its equipment with strong warranties and reliable, professional service. That's why Ruud backs the *Ultra Series™* high-efficiency Air Handler with a generous 10-year Limited Parts Warranty.

Protection You Can Count On

While your Ruud equipment is incredibly reliable and covered by an outstanding warranty, you can extend your warranty coverage with Protection Plus® extended service protection. Then you can relax and enjoy the comfort of your Ruud high-efficiency Air Handler – without worrying about the cost of parts or labor for unexpected repairs. And when Protection Plus® is purchased in conjunction with your dealer's maintenance program, you can enjoy the peace of mind that your equipment will be both maintained and repaired – as needed and without additional expense.

Ask your dealer about the variety of Protection Plus® plans now available. For more information, call 1-877-276-4294 or visit www.protectionplusonline.com.

KwikComfort® Financing

Ask your Ruud dealer about *KwikComfort®* Financing, the easy and convenient way to finance everything associated with your Ruud equipment – your original equipment, all subsequent service, Protection Plus® extended service protection, and even the comfort options you might choose to add later.
